

## PERSONAL PROFILE

Aspiring Cloud Engineer currently a student studying web development and software engineering, with a growing focus on cloud computing. Proficient in programming languages including Python, Java, and CSS, and passionate about developing scalable, cloud-based solutions. Experienced in working with cloud platforms and technologies, with an ongoing commitment to mastering tools like AWS, Azure, or Google Cloud. Eager to create innovative, efficient applications that leverage the power of the cloud. Continuously expanding my knowledge through projects and hands-on experience to build expertise in cloud architecture and deployment. Excited to contribute to the future of cloud technologies and grow in this rapidly evolving field.

## IT STUDENT

### EDUCATION

**2017-2019**

St. Mary's College, Negombo

I graduated with an Advanced Level in Mathematics

**2022-2024**

Tokyo Metropolitan Japanese Language School

Strengthened reading, writing, listening, and speaking abilities through the school's comprehensive curriculum.

**2024-2025**

Full-Stack Development

Studied full-stack development at Forum IT Academy, focusing on Java, Python, React, and Node.js.

**2024-2026**

Cloud Computing (Currently Learning)

Studying cloud platforms such as AWS, Azure, and Google Cloud to build scalable, efficient solutions.

### SKILLS | EXTRAS

- **Programming Languages:** Python, Java, CSS
- **Web Development:** HTML, CSS, JavaScript (Basics)
- **Cloud Computing:** AWS, Azure (Currently Learning)
- **Database Management:** MySQL, MongoDB (Basics)
- **Version Control:** Git, GitHub
- **Tools & Frameworks:** React (Basics), Node.js (Basics)
- **Soft Skills:** Problem-solving, Teamwork, Communication
